RE: Mark Strehlow volunteers time at Scout Camp

Dear Thomas Johansen,

One of the highlights in the young life of a Scout is his annual summer camp experience. At our Scout camps (rated in the top five best in America) they really have a grand Scouting experience!

But no Scout would make it to our camps were it not for volunteer leaders such as Mark Strehlow. It is this person and the hundreds of others that spend part of their personal time to bring their Scouts to camp that are the real heroes in our movement.

As we near the 100th anniversary of the Boy Scouts of America in 2010 we have learned that Scouting values make a positive impact on a child's life. Their summer camp adventure only enhances their Scouting experience and our opportunity to teach the values of character, integrity, self-esteem and service. Leaders like Mark Strehlow help make all of this possible.

Please take a moment to say **THANK YOU** to this volunteer Scout leader on our behalf for helping to make our future better by developing young people into responsible adults. Any recognition you might choose to pass along, too, would only strengthen their commitment as a volunteer leader.

Thank you for taking the time to read this letter and for whatever you may do to honor this Scouting volunteer. We wanted you to know how much we appreciate their time and talents for our youth.

If you have any questions about the Boy Scouts of America or the camping opportunities at the Crystal Lake Scout Reservation please feel free to contact me at 715-490-2241 or scott@samoset.org

For a better future through Scouting,

Scott Domino – Director
Crystal Lake Scout Reservation
