

## Board Policy

### Establishing District Goals

Each year, prior to April 1st, the School Board shall establish School District Goals. The coordination and development of these goals shall be the responsibility of the Superintendent. The total School Board shall provide input and must approve these goals.

### Guidelines

To serve as guidelines for Goal Development the School Board shall review the district philosophy, previous year's goals, needs assessment and all other reports brought to the Board's attention. The superintendent will also survey the administrative staff each year for its concerns.
