

Board PolicyPolicy Review

It is the policy of the School District that written School Board policies shall be reviewed, and if necessary, revised by the School Board annually. This process shall be an ongoing endeavor with policy review to be included each year by the School Board.

As the Board adopts yearly goals, consideration should be given to various sections of the policy manual that the Board feels is in need of update or review.

Policy Adopted: Sept. 8, 1981
