Gang Activity or Association

A gang as defined in this policy means any ongoing organization, association, or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of one or more criminal acts, which has an identifiable name or identifying sign or symbol, and whose members individually or collectively engage in or have engaged in a pattern of criminal activity. The "pattern of gang activity" means the commission, attempt to commit, conspiring to commit, or solicitation of two or more criminal acts, provided the criminal acts were committed on separate dates or by two or more persons who are members of, or belong to, the same criminal street gang.

Gangs which initiate, advocate, or promote activities which threaten the safety or well being of persons or property on school grounds or which disrupt the school environment are harmful to the educational process. The use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of grooming which, by virtue of its color, arrangement, trademark, symbol, or any other attribute which indicates or implies membership or affiliation with such a group, presents a clear and present danger. This is contrary to the school environment and educational objectives and creates an atmosphere where unlawful acts or violations of school regulations may occur.

Incidents involving initiations, hazings, intimidations, and/or related activities of such group affiliations which are likely to cause bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm to students is prohibited.

The district administrator will establish procedures and regulations to ensure that any student wearing, carrying, or displaying gang paraphernalia, or exhibiting behavior or gestures which symbolize gang membership, or causing and/or participating in activities which intimidate or affect the attendance of another student may be subject to disciplinary action.
