

INSTRUCTION

Staffing Assignments - Related Arts

A full-time equivalency guideline of thirty (30) sections of Art and forty-five (45) sections of Physical Education and Music per week is established at the elementary level. This assignment guideline will include any travel time that is necessary.

A part time teacher's contract will be adjusted to their actual percentage of full time equivalency based upon established guidelines. A full time equivalent teacher may exceed the district guidelines by 10% before additional staff is added.

At the secondary level, teachers will be assigned related arts classes based upon the grade level requirements and the enrollment in elective classes. Any adjustments in contracts will be based upon the agreement in the general teaching contract.
